

Respect for Community of Life

In this session, we will introduce what the Respect for Community of Life is about. Our team will then share the different values-in action (VIA) programmes planned and implemented for our students from the different schools to inculcate the values of respect and care for the community of life. We will walk you through a showcase of the various VIA projects that were carried out this year. We will explore how collaboration can be done and how the schools can come together to execute common VIA projects.

Guiding questions:

1. What does “Respect for Community of Life” means to you?
2. Having heard the sharing by the schools on our approach to the Respect for the Community of Life, please list down 1 takeaway from the sharing.
3. Are there any VIA projects that have not been shared but have been carried out in your respective schools that you would like to share?
4. Is there an opportunity to collaborate with any of the schools that coincides with any existing VIA efforts?
5. If so, please specify the VIA and school that you are keen to collaborate with.
